

BREWER'S SPECIAL

# Viking Chocolate Light Malt

## MALT CHARACTER

Chocolate Light Malt is produced by roasting from pilsner malt. The amylolytic activity of Chocolate Malt is zero. The amount of fermentable extract is rather low.

## FLAVOR CONTRIBUTION

"Chocolate" refers primarily to the malt's color, not its flavor. This malt will lend various levels of aroma, a deep red color, and a nutty / roasted taste, depending on the amount used. Aromas and tastes of coffee and chocolate can be found and they are well balancing the overall taste.

## APPLICATIONS

Chocolate Malt is mainly included in for Porters and Stouts, but it can also be used for any other dark colored beers like Dark Ales due to its strong coloring value. Chocolate Malt contributes roasted flavors and aromas with hints of dark chocolate and coffee in any beer. Already with rather low dosage portions a remarkable increase in color can be found together with changes in flavor and aroma. Typical dosage rate of Chocolate Malt is normally under 5–10%.

## DID YOU KNOW?

*Chocolate malt, unlike caramel malts, is obtained from dry malt, which undergoes caramelisation in the process of roasting as a result of exposing sugars to the operation of high temperature.*
