

Mini Mesh - Filter for PET fermenter

The Mini Mesh filter is ideal for infusing hops, herbs, oak chips or other flavourings into your PET carboy or FerMonster (see accessories). Thanks to this filter you can easily remove the herbs or hops after the required infusion time in the fermenter. The strainer mesh size is 50, preventing small particles from passing through. This smaller filter can be used together with the Monster Mesh filter. The Monster Mesh grabs onto the lid of the FerMonster, while the Mini Mesh fits the opening of the airlock. This allows you to do 2 infusions at the same time, which can be removed at different times. This allows you ultimate control over adding flavourings.

- fits PET carboys (see accessories) perfectly and fits the opening of the airlock on a FerMonster (see accessories)
- FerMonster remains sealable; both watertight and airtight
- mesh size: 0.3 mm / 50 mesh
- maximum recommended temperature: 80°C
- does not impart flavour
- easy to clean with sanitizer or boiling water (max. 3 minutes)
- inner diameter 4 cm, outer diameter 5.5 cm

Specification

Packing dimensions and weight:

Weight	0.1 kg
Length	8 cm
Height	7 cm
Width	7 cm
EAN code	825392012925
