## Ss Brewtech™ Chronical Fermenter 53 I (14 gal) °C

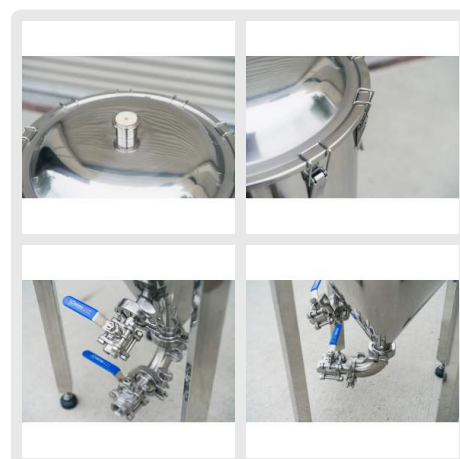

Take a look inside of any craft brewery and you are likely to find a small army of conical stainless steel fermenters. The Chronical line of fermenters is the next step up from Brew Buckets in our family of stainless fermentation vessels. The bottom dump valve allows you to harvest yeast and reduces yeast contact with the beer, allowing for a primary and secondary fermentation inside the same vessel.

Moreover, by including a domed lid we have given the user the ability to transfer under pressure (1-2 psi). Our standard Chronical line focuses on the fundamental essentials, with features such as a rotatable racking arm, TC fittings, and 3-piece ball valves that can be completely disassembled to clean.

- Pro brewing geometry
- ¾" dump valve and ½" racking valve
- Rotatable racking arm
- Domed lid with secure spring clamps
- Integrated pressure reducing valve
- Etched volume markings gals/liters
- LCD temperature gauge not included

### Specifications:

- 304 stainless steel
- Capacity: 14 gal (52.99 liter)
- Diameter: 15" (38.10 cm)
- Height: 36" (91.44 cm)

### Specification

Packing dimensions and weight:

Weight	15.5 kg
Length	46 cm
Height	93.5 cm
Width	45.5 cm
EAN code	5420069837303
