Viking Munich Malt Dark - 20-24 EBC - 25 kg

Curing temperatures in the range of 110–120°C give the malt an aromatic, nutty character. The high curing temperature results in clearly reduced enzyme activities compared to Pilsner Malt.

Applications

Munich Malt is ideal malt for dark lagers, festival beers and bocks for underlining malty flavors and full bodied taste. The decreased enzyme activities have to be taken into consideration when designing the brewing recipe.

Did you know?

The Munich malt was born relatively recently, in the 19th century. Its father was one man - Gabriel Sedlmayr II. This German visionary perfected the technology of malt drying, using British solutions as a model. Thanks to that, the – apparently – unpleasant smoke tones, spoiling the quality of beer, disappeared from Dunkel type beers

MALT SPECIFICATION		
moisture	%	max. 5.0
extract fine	% dm	min. 79.0
color (Light)	*EBC	14–18
color (Dark)	*EBC	20–24
free amino nitrogen	mg/l	min. 120
protein	% dm	max. 12.0
saccharification	min.	max. 15

MUNICH DARK MALT 20-24 EBC

Product description: Lagering malt, dark, high in protein, high in extract, high in color, high in diastatic power, high in enzyme activity, high in beta-glucan, high in fiber, high in ash, high in water-soluble carbohydrates, high in water-soluble phenols, high in water-soluble tannins, high in water-soluble polyphenols, high in water-soluble flavonoids, high in water-soluble terpenoids, high in water-soluble saponins, high in water-soluble alkaloids, high in water-soluble glycosides, high in water-soluble glycolipids, high in water-soluble phospholipids, high in water-soluble sphingolipids, high in water-soluble sterols, high in water-soluble carotenoids, high in water-soluble vitamins, high in water-soluble minerals, high in water-soluble trace elements, high in water-soluble essential amino acids, high in water-soluble essential fatty acids, high in water-soluble essential vitamins, high in water-soluble essential minerals, high in water-soluble essential trace elements, high in water-soluble essential amino acids, high in water-soluble essential fatty acids, high in water-soluble essential vitamins, high in water-soluble essential minerals, high in water-soluble essential trace elements.

Specification

Packing dimensions and weight:

Weight	25 kg
Length	79 cm
Height	12.5 cm
Width	50 cm
EAN code	5420069833176
