## Viking Lightly Peated Malt - 7-10 EBC - 25 kg

The flavor of this malt is as with pilsner malt with hue of peat and smoke. Varieties suitable for peat-curing process are used. Due to relatively low processing temperatures, enzymatic activities and other good brewing properties are maintained.

### Applications

Lightly Peated Malt can be used in distilleries in whisky production. In the brewing process, as Lightly Peated Malts flavor and taste profile is not too overwhelming, it can be considered as pilsner malt with a special aroma. Lightly Peated Malt can be also used in bakeries as a spice.

### Did you know?

In Poland malting barley is delivered directly from specialized farms, located close to our malthouse. The average distance is only about 50 km.
