Hop pellets Cashmere - 100 g

Cashmere is developed by Washington State University and was released in 2013. It is the result of a marriage between Northern Brewer and Cascade, it features higher alpha acids than the latter does.

Cashmere is a good dual-purpose hop, as it showcases flavours of lemon, lime and melon, while exhibiting a smooth bitterness. It is mildly aromatic with a subtle herbal bouquet. The exact alpha acid content is indicated on every package.

Specification

Packing dimensions and weight:

Weight	0.1 kg
Length	17 cm
Height	3 cm
Width	8 cm
EAN code	5420069844011
