## Brewferm Natural Sensation Cherry 20 g

Imparts the pleasant flavour and aroma of cherries to your beer in an instant.

Adjust, improve and perfect your beer.

Natural Sensation is a concentrated fruit or herb aroma, available in various flavours and scents. The resulting flavour and scent effect is identical to what you'd get if you added the same herbs or fruits at the end of the boiling process or macerated the young beer with the fruit.

Add these sensations before bottling to bring your beer to perfection. Creates an instant effect and guaranteed consistent results, regardless of fruit harvest. Easy and always available.

Add according to taste; a single package is sufficient for maximum 20 litres of beer (recommended dose: max 1 g/l beer).

Need inspiration? Download the Brewferm Sensation Guide to take your beer kit, malt kit or own recipe to the next level.

- **Instantly effective**, the dosage can be adjusted immediately after tasting. With traditional herbal methods, flavour is harder to adjust, except by brewing again.
- Concentrated, so that a **small dose** has a big impact, making it economical in use.
- The extract **dissolves completely in the beer**. Unlike traditional herbal methods, no herb residue need be filtered out of the beer.
- Standardised product to facilitate brewing beer with a **consistent flavour**.
- **Improved shelf life** compared to dried herbs or fruit; product can be stored at room temperature.
- **Stable quality** for the entire life span (1 year)

Here's how it works: (see sensation process picture)

Easily add the desired aroma of fruits or herbs and instantly taste the difference. Follow the steps below for a perfect result.

1. Brew (with a beer kit, malt kit or your own recipe)
2. Ferment
3. Taste
4. Add your sensation  
\* Repeat steps 3 and 4 until desired result
5. Bottle
6. Enjoy

### Specification

Packing dimensions and weight:

Weight	0.035 kg
Length	14 cm
Height	1 cm
Width	9 cm
EAN code	5420069827151
