Blichmann™ AutoSparge™ mash-rinse assembly

Autosparge mash sparging set

The AUTOSPARGE is indispensable for the constant and efficient sprinkling of your grain bed. Mount this Autosparge in your brewing kettle/mash tun, set the desired rinsing water level, connect to your rinse water boiler and GO! Forget about the rinse water overflowing or your grain bed drying out. The stainless steel float ensures that your grain bed always stays properly under water. Thanks to the gentle whirlpool effect, the sparging efficiency increases without oxygen intake. Suitable for tanks starting 36 cm diameter. Suitable for RIMS applications. Stainless steel with silicone tube. Requires an opening of 22 mm.

Specification

Packing dimensions and weight:

Weight	0.55 kg
Length	20 cm
Height	8.5 cm
Width	8.7 cm
EAN code	5420069841515
