## Blichmann™ brewing gloves L

Blichmann™ Engineering's industrial-grade brewing gloves are standard-issue in commercial breweries. We recommend the same for the serious homebrewer.

- Gloves reduce your risk of burns and scalds.
- Harmful sanitisers, acids, and caustic chemicals are kept away from your skin.
- Because gloves can themselves be effectively sanitised, they help you maintain sanitized equipment.
- Elbow-length size allows you to reach into 20 litre buckets.
- The tear- and puncture-resistant nitrile rubber is 0,7 mm thick — up to four times that of household gloves — while maintaining great feel and dexterity.

### Sizing guide

Gloves are available in Medium (M), Large (L), and Extra Large (XL). To select your size, measure the circumference of your hand in centimetres at the knuckles (exclude your thumb) using a flexible fabric tape or a piece of string.

The measured circumference determines the glove size. If the circumference is in between two sizes, choose the nearest size:

Size M: 20.5 cm

Size L: 23 cm

Size XL: 25.5 cm

### Specification

Packing dimensions and weight:

Weight	0.09 kg
Length	32.4 cm
Height	4.2 cm
Width	23 cm
EAN code	5420069841539
