

PLAATO Keg - Keg Management System

Have you always wanted to know what's going on in your pressure kegs or corny kegs? PLAATO Keg is the ultimate Keg Management Systems that monitors exactly how much beer is left in your keg. Thanks to the useful app you can easily keep track of your batches of beer, calculate the ABV... After a simple Wi-Fi set-up you can keep an eye on your keg and its contents from anywhere.

More interesting features:

- Accurate information about the amount of beer in the keg; 3 precision sensors measure the weight of the keg every 0.1 second.
- Possibility to receive push notifications with the exact amount of beer you have poured.
- Is your fridge suddenly not working? It is possible to receive notifications of abnormal temperatures or sudden temperature fluctuations.
- The PLAATO Keg is beer- and waterproof and informs you of leaks in your refrigerator.
- Possibility to add more kegs in the app and to share the info with friends.
- Suitable for all kegs with a maximum diameter of 225 mm and a volume of up to 50 litres.

Specifications:

- Super slim and sleek design, Red Dot 2020 winner
- Accuracy: 0.33 oz / 10 ml
- Wi-Fi connectivity
- Free iOS and Android app
- USB-powered (cable included)
- 3 x high-quality load cells
- Impact resistant polycarbonate body
- Waterproof

Functions:

- Keg volume measurement
- Last pour size
- Ambient temperature measurements
- CO₂-tank mode
- Historical data
- Optional user input: beer type, kegging date, O.G. & F.G., ABV%
