Duotight 8 mm (5/16") push-in fitting with ball valve

This Duotight fitting with tap is designed to easily control the flow rate of 8 mm EVABarrier hoses (see accessories).

Duotight fittings guarantee a 100% leak-free result thanks to their superior sealing qualities. Their secret is not one but two O-rings, made of top-quality EPDM. To ensure a complete seal, cut the hose as straight as possible. Duotight fittings are pressure-resistant up to 6.5 bar. This fitting is compatible with the EVABarrier hose (see accessories 058.864.2 or 058.864.10).

Specification

Packing dimensions and weight:

Weight	0.1 kg
Length	6 cm
Height	3.5 cm
Width	3.5 cm
EAN code	0588608
